

Children's Health Insurance Program

Core CAHPS Questions

Composite and Questions

Family-Centered Care

This chart summarizes the responses to survey question 37, 38, 39, and 40 contained in the composite, "Family-Centered Care." Individual question-level responses are also below.

Composite

Washington State
CHIP beneficiaries
(n=63)

Scores with fewer than 85 responses are not displayed.

Q37. "When decisions were made in the last 6 months, how often did your child's doctors or other health providers offer you choices about your child's health care?"

Q37. (n=63)

Scores with fewer than 85 responses are not displayed.

Q38. "When decisions were made in the last 6 months, how often did your child's doctors or other health providers discuss with you the good and bad things about each of the different choices for your child's health care?"

Q38. (n=61)

Scores with fewer than 85 responses are not displayed.

Q39. "When decisions were made in the last 6 months, how often did your child's doctors or other health providers ask you to tell them what choices you prefer?"

Q39. (n=62)

Scores with fewer than 85 responses are not displayed.

Q40. "When decisions were made in the last 6 months, how often did your child's doctors or other health providers involve you as much as you wanted?"

Q40. (n=62)

Scores with fewer than 85 responses are not displayed.

NOTE: Results presented in this report are based on the 2001 "Survey About Your Child's Health Care" CAHPS survey sponsored by the Washington State Medical Assistance Administration. To guard against inappropriate interpretation, scores are not displayed when there are fewer than 85 responses for a single survey item. The bar graphs show unadjusted proportions for each response category. Stars are not presented because there is no comparison group. Due to rounding, some bars may not add up to 100%. Request "Detailed Methodology" for additional information.
